

Create a comfortable outdoor environment with the touch of a button!

Somfy's outdoor heater with RTS offers a green solution to heat any outdoor space. Unlike gas heaters, this infrared heater warms the people and not the air. It also offers considerable energy savings because it heats up instantly without having to waste electricity or heat. It also has a 15% lower carbon footprint than traditional gas heaters.

Infrared RTS Heater

Did you know?

- Infrared heaters have lower running costs than gas heaters: 30 cents per hour in electricity for infrared instead of 2 dollars per hour in gas.
- Infrared heaters are not affected by wind, unlike gas heaters.

Infrared RTS Heater Receiver

- Multiple heat settings: off, low, medium & high
- Optional mounting brackets for use under awnings available
- A separate RTS receiver is also available for existing infrared heaters

Technical Data:

Voltage	120 V
Power	1500 W
Current (A)	12.5
Minimum Mounting Height From The Floor	6'7"
Minimum Height From the Ceiling	12"
Minimum From Side Wall	60"
Weight (lbs)	7
Insulation	Class I
Ingress Protection	IP X4

Heat Span (Sq ft)	130

Ideal for patios, decks and balconies; create an outdoor living space that can be used well into the cooler months, perfect for entertaining or just relaxing.

Ideal for restaurants, cafes and bars; ensure that guests dining outdoors are always comfortable.

For additional information, please contact Somfy at 1-877-43-SOMFY or visit www.somfysystems.com/rtsheater

Somfy's RTS heater is controlled via Radio Technology Somfy® and can be operated with the same control used to activate a motorized awning. The heater features three different heat settings and is compatible with all RTS controls including: hand-held remotes, wireless wall switches and table top controls. When used with the Telis Modulis RTS, users can easily adjust the heat incrementally using the center scroll wheel. Users can also program a favorite heat setting with Somfy's "my" feature. It is now possible to adjust awnings, operate patio lights, and manage heater temperatures all with the same Somfy RTS remote!
