

# COLOR+, AN ESSENTIAL RANGE

What would these roller shutters be without their controls?  
**COLOR+** is at the heart of the SIMU-Hz radio range. With its 1 channel wall transmitter and its 1 to 5 channel remote controls, it provides the essential functions for controlling your roller shutters.

## SIMU'S NEW SIGNATURE OF CONTROLS

www.simu.com

## SIMPLICITY OF THE DESIGN

**SIMU wanted the design of this new range to mirror itself... simple!**  
Simplicity of the transmitters' shapes and lines which will easily adapt to all interior styles.

### A SUBTLE AND CONTEMPORARY DESIGN

Clean, straight lines, a flat surface... just some of the many characteristics that give this new range a timeless and universal feel.

### REFLECTING SIMU'S RELIABILITY

A high-quality product, made to last... to the very top of SIMU's expectations.

« SIMPLICITY,  
MEANS RECOMMENDING SOMETHING  
COMPLETELY RELIABLE TO MY CUSTOMERS »  
MARC - 32 YEARS OLD - ROLLER SHUTTER MANUFACTURER

## A NEW CREATION IN 3 POINTS

### 1 | EMPHASIS OF THE FAVOURITE POSITION BUTTON, A REAL COMFORT FUNCTION

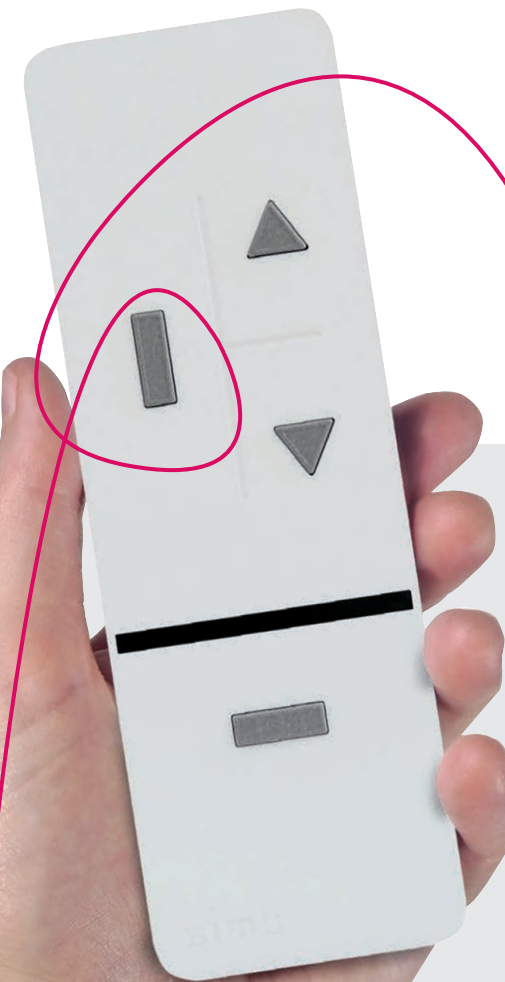

SIMU has chosen to move the position of this button forward in order to make the « comfort function » even more obvious.

### 2 | ENHANCED FUNCTIONALITIES

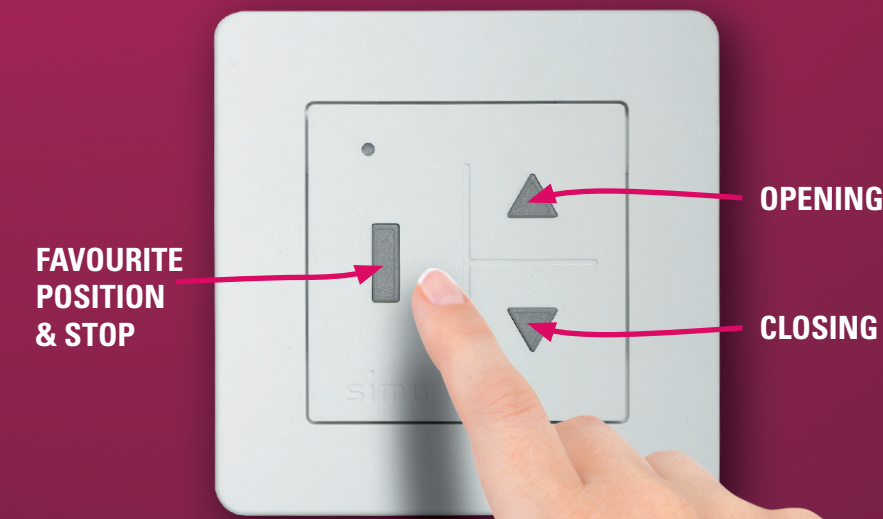

The shape of the buttons clearly shows their function. Slightly raised, they are distinguished by their metal grey colour and are just waiting to be pressed.

### 3 | IMMACULATE FINISHES

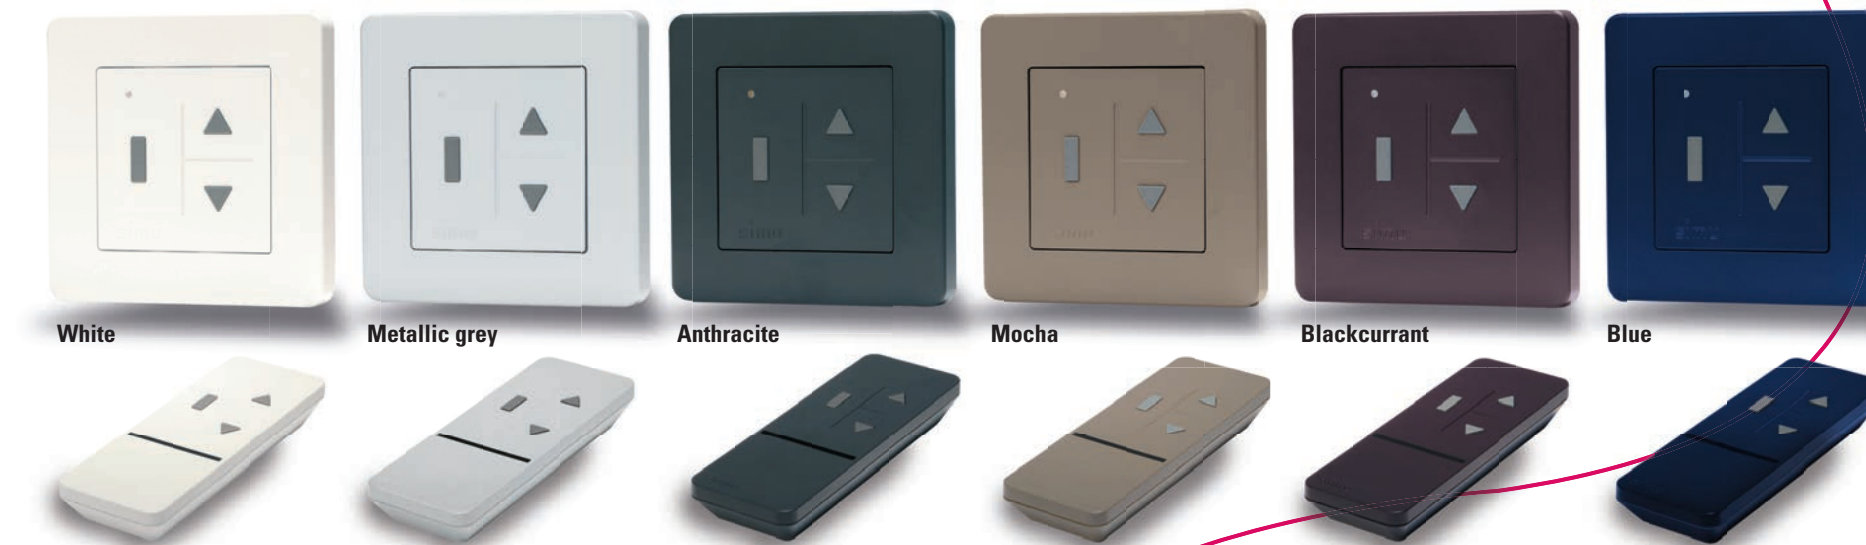

The materials are pleasant to touch and there is a precision when pressing the buttons.

Simply pressing down the favorite position button allows the user to find their preferred brightness level.

## NEW RANGE OF COLOURS

### 1 | A CHOICE OF 6 COLOURS

A range of subtle and contemporary colours, with a matt finish that highlights the purity of the colour. Something for every taste!

### 2 | A COLOUR COMBINATION TO SUIT EVERYONE!

Face plates and frames can be combined to your imagination's content... There will be something for everyone.
